

# Blasts Well Planned, Official Says

BONN (UPI) — The chief of the nation's criminal police said Tuesday the bombs used in the recent wave of attacks on public buildings and U.S. military facilities in West Germany were being mass-produced by a small group of persons.

Horst Herold, president of the federal criminal police, told a television interviewer that everything connected with the attacks pointed to "careful planning, to a controlling brain, to a central authority."

He said experts working with unexploded bombs found in public buildings and on the remain of detonated bombs used in the attacks were convinced

they were manufactured by a "small, closely knit group" in a "kind of series production."

Herold said the attackers exploited the fact that the police were forced to work within legal limits in dealing with them. He said the "murderous, maliciousness of the (bombing) acts" meant, in his view, that the "desperadoes" did not deserve to be referred to as revolutionaries.

Bombs have exploded within the past three weeks in six West German cities. They included two blasts in automobiles parked on lots inside the compound of the U.S. Army's European headquarters in Heidel-

berg and three explosions within the headquarters complex of the Army's V Corps in Frankfurt.

Four American servicemen died in the explosions.

(USAREUR announced that the German-American Women's Club of Heidelberg has presented 500 German marks to each of the three widows of the soldiers killed in the bomb explosions at USAREUR Hq last Wednesday.)

The so-called "Red Army Faction" has claimed responsibility for the explosions.

The latest action by the anarchist group, whose leaders

Andreas Baader and Ulrike Meinhof have been hunted by police for two years, was a threat mailed to two news agencies that they would explode three bombs in automobiles parked in the streets in Stuttgart Friday afternoon.

The premier of Baden-Wuerttemberg state, of which Stuttgart is the capital, appealed to the almost 700,000 inhabitants of the city Tuesday to report to the police any suspicious actions they saw.

The premier, Hans Filbinger, told a news conference the authorities had taken every possible security measure to pre-

vent the threats from being carried out.

He stressed, however, that there was no way to ascertain the seriousness of the threats. He said the public would be kept informed daily of the position, and that there was no reason for hysteria.

Stuttgart Police Chief Paul Rau said officers continued to control automobiles and asked identification cards from drivers as part of the security measures imposed since the bomb threats were received.

Rau said hundreds of automobiles were inspected Tuesday.

# IRA Provisionals Kill 2 Civilians, Blow Up Bottling Plant, Laundry

BELFAST (UPI) — The Provisional wing of the Irish Republican Army (IRA) Tuesday answered the Official wing's call for a cease-fire with bombs and bullets.

In a flurry of attacks, gunmen killed two civilian men, wounded a third and blew up a

beer bottling plant and a laundry, a British army spokesman said.

Other gunmen, believed to be Provisionals, fired at patrolling British troops more than 25 times, he said.

The gunmen missed, but the soldiers said they shot at least

four of their assailants.

In Londonderry, Catholic housewives, supported by a men's committee, organized a "peace petition" in the Catholic Bogside and Creggan Estate areas. Mrs. Mary Barr, one of the leaders, said they expected "many thousands" of Catholics to sign the document, which rejects violence.

"When we have these signatures we will present them to William Whitelaw (secretary of state for Northern Ireland) she said.

All three civilians were gunned down in predawn shooting incidents and found later by troops, the spokesman said.

A patrol found Leonard McAteer, 23, fatally shot and his companion wounded in the eye in Ballynastreagh, a small town 30 miles south of Belfast. The bullet-riddled body of the third man, Thomas Wardlow, 32, was discovered in the gutter of a street dividing Catholic and Protestant districts in Belfast.

Heavy Damage  
Bombs later heavily damaged Belfast's Morton beer bottling plant and a laundry that catered to British troops in a nearby suburb. No one was injured.

The bombings and shootings followed an indefinite cease-fire announced by the Marxist-slanted official wing of the IRA after weekend talks in Dublin.

In Belfast, a spokesman for the Provisional wing described the cease-fire call as a "surrender."

## Swiss Get Harvard Branch

BOSTON (AP) — Harvard Business School has announced that it will locate its new senior management training program and its European research office in Lausanne, Switzerland.

# Antiwar GIs Protest At Schweinfurt Posts

SCHWEINFURT, Germany (S&S) — A crowd estimated at 30 to 40 U.S. soldiers shouting anti-Vietnam slogans with a handful of American dependents and German demonstrators broke up Monday about 6 p.m. after 3rd Inf Div MPs prevented them from entering Ledward and Conn Caserns here.

A 3rd Div spokesman said the group chanting anti-war slogans and profanities gathered at the gate to Ledward at 3:30 p.m. but were stopped by the MPs.

Ringleaders of the demonstration, he said, were ex-GIs —

several of whom had their wives along. The dependents all were males, he added.

"There was no violence and no damage done," the spokesman said. "They milled around a while and then moved 1½ miles to Conn where they finally scattered when MPs again halted their attempt to march into the second U.S. post."

None of the demonstrating soldiers was in uniform because of the Memorial Day holiday and there were no arrests, the spokesman said. He added, however, "the incident is under investigation

# July Call-Up to Start at No. 30

WASHINGTON (UPI)—Men with lottery numbers 30 to 50 will be called up beginning in July, the Selective Service System said Tuesday.

The draft quota for July will be 7,200 men, a figure which draft officials said would rise to 9,000 in August. The calls for the rest of the year after August will average about 8,800 per month in order to meet the 50,000-man draft pool which Defense Secretary Melvin R. Laird said would be needed this year.

Selective Service officials

said that no one could yet predict the highest lottery number likely to be called this year. They said it would be "substantially below" the No. 125 cutoff point reached last year when draft calls totaled 98,000.

No one was drafted during the first three months of this year but 15,000 men, with lottery numbers 1 through 35, are being called in the three-month period which will end June 30.

After that, the flood of deferred men with low lottery numbers who lost their defer-

ments on graduating from college was sufficient to meet monthly draft calls without raising the ceiling number. However, since so few numbers have been called so far in 1972, this may not be true this year.

Furthermore, the Selective Service recently said it was planning to allow men to enlist in the National Guard or Reserves after receiving their induction notices. In the past, once a man had been sent his notice he could avoid the Army only by enlisting in another service for at least three years.
